Hail Does Considerable Damage In County

1.90 Inches Of Rain Falls During Three Days

Hail Damage Starts Near Jowell and Crosses the County to the Zita Community

DAMAGE IN CANYON

Windows Broken, Roofs Beaten, Auto Tops are Damaged Along With Wheat Losses

Rain continued this week, with 1.40 inches of rain on Thursday, Saturday and Monday.

Hail swept through the county Monday afternoon, doing considerable damage to the wheat. Losses were reported in Canyon, as the heavy part of the hail seemed to center around Canyon.

The rain Thursday amounted to .60 of an inch; .05 on Saturday; .75 on Monday.

The hail storm hit Canyon about 5:30, following a very rapid rise in temperature. Large hail stones fell for several minutes, some measuring as much as 2 inches in diameter. The hail seemed to start in the Jowell community, and travel northeast across the county. The loss to the wheat will run from 10% to 50% through the strip of country hit. The largest losses reported seem to be to the east of the Zita community. Many farmers carried hail insurance, but a large number were without protection.

Hundreds of window lights in Canyon were smashed by the hail. President J. A. Hill reports a loss of more than 100 on the campus. The Methodist and Baptist churches lost about 20 lights each. Neon signs and composition roofs around Canyon were badly damaged. Tops of many automobiles were badly damaged.

The rainfall for June now amounts to 1.90 inches, with a total of 8.84 inches for 1937. This is a little better than the record for 1936.

The cool weather of last week was very fine for the wheat crop. The prospects for wheat has greatly improved, and farmers from all over the county are greatly pleased with improvements which are made in the crop.

A large row crop will be planted as soon as the farmers are able to get into the fields. The Agricultural Conservation program calls for the conservation of all of the moisture by contour listing. This method will do much to check the spring dust storms when practiced by all farmers of the county.

WPA Planning Project on Street in New Year Program

Frank Harrison was not able to complete plans this week for the street improvement program in Canyon as contemplated last week.

However, WPA district headquarters in Amarillo has assigned an engineer to the project to assist Mr. Harrison in completing the plans and getting them ready for submission in the near future.

It is planned to connect Third and Seventh avenues with hard surfaced streets through the city, and to close all gaps in existing pavement. In addition to this several blocks will be paved east of the highway and around Buffalo Stadium.

The assistance of the WPA engineer will greatly speed up the completion of the plans.

This project is being planned to take care of workmen during the winter. It is planned to start this after all improvements have been completed on the college campus.

Mr. and Mrs. Irby Carruth left Tuesday for Austin where he will study at the University during the summer.

949 Students Are Enrolled In W. T.

205 Are Taking Coaching School: 30 in the Art School at Palo Duro State Park

With 949 students enrolled for the summer session, the attendance is running up to the average of recent years.

The heavy rains of last week slowed up enrollment, but those coming in late brought the total up to the normal figures for the summer session.

The Coaching School started Monday with 205 enrolled. Visiting coaches came from 16 states, and one from Mexico City. The staff selected by Coach Al Baggett has proven very popular with the men entered in the school and high praise is being given for the work that is accomplished. The school will continue through Saturday. Of the 205 enrolled, more than 50 coaches are here for the regular summer session.

Headed by Dr. Jock Sutherland of Pittsburgh University, the able staff is giving work which covers 12½ hours daily.

Thirty students are enrolled in the Art School being held at the Palo Duro State Park. Interest in the school among the artists of the state is very pleasing to Miss Isabel Robinson, director. Among the instructors are: Miss Amy Jackson of Amarillo; Carroll Killebrew of Pampa; Gene M. Brock of Houston; Harold Bugbee of Clarendon; A. W. Mack of San Antonio.

Engineers Look at Site For Buffalo Dam—Amarillo Lake

The proposed site for Buffalo Lake, south of Umbarger, was highly approved Friday by A. H. Dunlap of the State Board of Water Engineers, and Colonel R. O. Whiteaker of the Texas State Parks Board. Both men are authorities on the construction of dams.

Accompanied by G. B. Heath, W. A. Warren and Clyde Warwick, the engineers inspected the proposed site and pronounced it to be a very sound undertaking. All of the assistance possible was promised.

Mr. Dunlap will assist in planning for the dam, since his department is interested in all water projects in the state.

Col. Whiteaker is interested in the dam to the extent of keeping flood water out of the Palo Duro State Park. These floods do great damage in the park and the only method of controling them is the construction of large dams above the park.

While here the two men worked on plans for the proposed swimming pool in the Park. They believe that the project will be put over in the near future.

Mr. Dunlap inspected the Amarillo Dam and made suggestions in repairing the spillway as soon as the overfloow decreases. He could see no danger in the dam. Many local people have been lead to believe there was danger of the dam breaking. The spillway will be improved so as to take care of the overflow in the future, without danger of cutting too deep in the side of the lake.

CONDITION OF CARL MORTON IS SERIOUS

Carl Morton is reported to be in a very serious condition at an Amarillo hospital. It was feared this morning there was slight chance for his recovery.

Mr. Morton was taken to the hospital for an operation but his condition was too serious for an immediate operation.

DONATED TWO BOOKS

Dolly Robinson has donated a child's book to the Randall County Library, and her grandmother, Mrs. A. F. Chamberlain, has donated a book of fiction.

Several new books have been added to the library since the first of the month, states Mrs. S. D. Burton, librarian.

Help Keep Canyon Clean!

Dust Storm Hits Friday Night After Heavy Rains

Citizens of Canyon were amazed Friday night when a real dust storm hit town about 9:15 o'clock. The wind had changed to the north early in the afternoon and continued to blow in an increasingly high gale until the dust arrived.

The dust storm continued for several hours, but nothing as bad as in the early spring.

None of the dust originated in this section owing to the heavy rains. It is stated that all of the dust came from Colorado and Montana, which remain dry, and was carried here by a very high wind which swept from the north over those states.

Utilities Company Cooking School To Be June 17, 18

Modern cooking and kitchen planning will be the theme of a cooking school to be conducted by the Texas-New Mexico Utilities Company, June 17 and 18.

Recipes and kitchen hints of interest to the home-maker will be discussed by Miss Anna Belle Hickman, home economist who will be in charge. She will begin her lectures at 2:30 o'clock each afternoon.

The woman of Canyon are cordially invited to attend and it is hoped that a large number will avail themselves of the opportunity to hear Miss Hickman.

MRS. BELLAH VERY ILL

Mrs. Alfred Bellah has been seriously ill at her home the past week.

Miss Fern Landers of McLean is a student here this summer. She taught at Vega during the past year.

Chas. L. Dickey Resigns Pastor Local Church

Has Been Pastor of Local Presbyterian Church 4 Years; Goes to Paris Church

Rev. Charles L. Dickey announced Sunday that he had accepted a call from the Presbyterian Church at Paris, and will leave Canyon about the first of July.

Rev. Dickey came to Canyon three years ago last October. He has been highly successful in his ministry in the local church, and it was in recognition of his ability as a preacher and organizer that he was given the call from the Paris congregation.

During his ministry in Canyon, Rev. Dickey has affiliated himself with various community enterprises and has been very active in all phases of such work. He has been a member of the Rotary Club and is song leader at the present time.

The local congregation has made no provision for a pastor to succeed Rev. Dickey, but will likely take some action in the near future.

Conservation Group Meeting Today Held to Hear Carl Hinton

W. A. Warren is in Amarillo today to hear a report from Carl Hinton on his work in Washington on the Water Conservation program which is pending in congress.

John McCarty, president of the organization, spent last week in Washington assisting Mr. Hinton with the work.

Mrs. Millard Word is visiting in the parental S. L. Ingham home and with friends in Canyon this week. She is now living near Clarendon.

State Board Gives Okay to Worksheets

All Contracts From the County Will Go To the State Board at College Station Soon

All worksheets from Randall County under the 1937 Agricultural Conservation program will be sent to College Station in a few days, stated County Agent W. H. Upchurch. 100 worksheets were recently sent to the State Board as a test. Mr. Upchurch had the approval of the State Board on these worksheets while in College Station last week, and was authorized to send the remaining sheets in as soon as possible. Only a few minor corrections on the work that been done were recommended by the State Board.

Mr. Upchurch states that payments have been made on all but five contracts of the 1936 program in Randall county. All of these involve estates which have not yet been settled. Randall county is in much better shape so far as payments are concerned than most of the counties in the state.

909 farms are signed up in Randall county under the 1937 program, which accounts for 99 4-5% of the crop land in the county. Of the total 590,000 acres in the county, a total of 554,376 acres are under the crop and range programs of the government. The balance of the land in the county consists of town property, canyons, creeks, railroads, highways, etc.

While payments under the 1936 program were not made until early in this year, the State Board hopes to be able to make the 1937 payments by the end of this year.

Under the 1936 conservation program, Randall county received $319,811.19. It is of interest to note that the 254 counties of Texas received a total of $32,482,416. Therefore the land owners of this county received practically 1% of the total payments of the state.

Denton Firm Will Retop Highway No. 33 West of City

The Public Construction Company of Denton was awarded the contract Friday for retopping highway No. 33 from Canyon to the Deaf Smith county line. The specifications call for double asphalt. A single course topping was put on when the highway was first built. There are 15.221 miles in the contract and the contract was awarded at $18,262.

This firm did the topping job on the highway from Canyon to the Palo Duro State Park.

Fire Saturday Damages Lucile Davault Home

Fire of undetermined origin did considerable damage to the home of Mrs. Lucile Davault, 1501 Second Avenue, Saturday morning. The blaze was discovered at 2 o'clock in the morning and had apparently started on the service porch.

The porch was destroyed and the breakfast room and dining room were damaged before the blaze was extinguished.

Mrs. Davault and daughter Lucile, and son L. T., were in the house at the time.

The loss was covered by insurance.

Proceeds Will Go To Public School Band

Seek $500 to Buy Four Big Bass Horns to Improve Balance In The Band

FEATURE PROGRAM

All Citizens Are Urged To Attend Gathering at High School Auditorium Friday Night

All plans are complete for the community box supper which will be held tomorrow night for the benefit of the public school band.

W. P. Sharman, chairman of the band committee, stated yesterday that owing to the continued rains the meeting would be held in the high school auditorium instead of on the lawn, as originally planned.

The program will be as follows:

Music by the band from 8:00 o'clock to 8:20.

Contest for the most beautiful girl.

Contest for the ugliest man.

Sale of boxes.

Concessions will be run, selling ice cream and red lemonade.

Mr. Sharman states that every girl and woman in the county is given a cordial invitation to attend the box supper and to bring a box.

Every boy and man in the county is invited to come and buy a box.

The box supper is held in order to raise funds with which to buy horns for the public school band. Four big bass horns will cost about $500 and it is the hope of the committee that a sufficient amount of money may be raised during the summer to buy these horns.

Mr. Sharman states that his committee wishes to make it clear that everyone in the county is invited and urged to come and take part in the program Friday night.

Palo Duro Wash-out Causes Concern To Gas Pipe Line Co.

The Palo Duro canyon has increased 80 feet in width during the past two years, stated R. E. Wertz of Amarillo Monday. This continuous washing out has caused great concern to the gas company in furnishing natural gas to Canyon and the South Plains.

The main line has broken twice in recent years during high water. Two years ago the company built an extra heavy support for the 40 feet back from the north bank at the Palo Duro crossing on the Dolcater place. The Palo Duro has washed out so that this support is now 40 feet out in the bed of the creek. The wash at this point has amounted to 80 feet in two years.

A few years ago the Palo Duro at the Six Mile Crossing was only a small stream, with no bridge necessary. During the recent floods the south approach to this bridge was threatened.

A few years ago a dam was washed out just west of the Six Mile Crossing. Two weeks ago the dam on the Palo Duro Club grounds was washed out. Both dams went out because of the continuous increasing size of the Palo Duro. Unless the washing is checked, authorities fear that the Palo Duro will be widened as far west as the Santa Fe bridge within a few years. No steps have been taken to replace the dam on the club grounds, but work will likely start when the flood water recedes.

Gwendolyn Black To Teach in Girls' Camp

Miss Gwendolyn Black is leaving this week-end for Wisconsin where she will be Director of Music in Sheboygan Camp Rokiliv for Girl Scouts.

Miss Black will be away about six weeks. She held the same position in Camp Sheboygan last summer.

Horse race gambling will be abolished in Texas 90 days from adjournment date of the special session of the legislature. The legislature passed the bill abolishing legalized gambling Friday, but not by large enough majority to make the bill effective upon the signature of the Governor. The bill had little difficulties in the House, but met with stubborn resistence in the Senate. The legislature is considering other forms of gambling this week. The bookie is by far a greater evil than the pari-mutual betting. The bookie operates the year around on every race meet that is going on. Bets are accepted by the bookie on horses whether they race or not. The bookie pulls in the real suckers. Just recently a race horse owner stated to The News that he never placed a bet on any of his seven horses; that he always refused to give advice; he was in the business for the pleasure he received, and raced only for the purse. But he stated his horses were hardly ever entered in a race that some bookie operator did not call him, asking that the horse be withdrawn at the last minute, and offering to pay the full purse if he would do this. If this owner was crooked he could have received first money, and the suckers who had placed money on his horses through the bookies would have lost all they put up. While Texas is ridding herself of the pari-mutuals, the bookies and dog racing should also be banished.

How quickly people forget. A few short days ago the seriousness of the "dust bowl" brought complaint from all sections of the Southwest as dust drifted in from the drouth section. The rains flooded the dust bowl. Now the newspapers outside the afflicted area, and even some newspapers within the area, are referring to this as the mud bowl. Unfortunately it has not been proven that the splendid rains of the past three weeks are to become permanent institutions and of frequence reoccurrence. Unfortunately, the Great Plains have had drouths in the past, and will likely have them again, unless a permanent policy is adopted to conquer the dust. Much of the water which fell in this section ran away in the creeks and rivers. The farmers who had their land well contoured held much of the water which fell on their cultivated lands. Given half way normal rainfall during the coming 60 days, these farmers will make good row crops. But the big problem of the dust bowl is to hold the water which falls in this section. If congress will appropriate $10,000,000 for the construction of dams and lakes in the dust bowl, and contouring will be continued throughout the coming years, the dust bowl problem will be solved to a very great extent.

This is the last week for publication of the six constitutional amendments in The News. These amendments are to be voted upon in August, and voters should take the time now to carefully read the measures. Voting upon constitutional amendments is the only time that the citizens of Texas have the opportunity to pass directly upon the laws of the state. The legislature passes upon other measures without consulting the people. In other days it was thought that when changes were made in the constitution, it was for a long, long while. The people of the nation were surprised to see the 18th amendment repealed after being in force only a few years. In August the voters are called upon to decide whether or not they wish to repeal the amendment passed three years ago whereby the fee system was abolished and county and precinct officers were paid salaries. Read these amendments carefully this week, then be sure to cast a vote in August. With only 75% of the qualified voters paying their poll tax this year, the vote will be very light, even with all poll tax holders going to the polls.

When the Supreme Court adjourned last week for the summer, the score stood: 13 decisions in favor of New Deal legislation; 11 decisions against the New Deal. This record has increased the opposition to the President's court reform bill. Compromise is now being considered. However, since the Presideint has announced that he will consider no compromise, the opposition has taken a most decided stand against compromise. A struggle to a finish is threatened. Prospects for passage of the court reform bill are by no means as bright as they were a few weeks ago. As opinion seems to increase in opposition to the bill, those who are fighting the measure have taken on new hope and are putting up a harder fight. Regardless of the final results, the nation has profited by this free and frank discussion of court measures. The people know more about their courts today than they did before the President tackled this problem.

The fight among Democrats in congress goes on at a merry clip. The result will probably be defeat of the party in 1940. While most members of the party were highly elated at the sweeping victory last week, leaders were distressed that so few Republicans were left in congress. An overwhelming Democratic majority in congress cannot be handled. President Roosevelt had become so accustomed to having his orders obeyed without question during his first term that he overlooked the possibilities of revolt when the majority increased. To whip the President on one bill will mean a revolt of independent Democrats in Congress down the line. Unless the President shall be able to pacify members of his party within a short while, the outlook is none too promising for a continuation of power of the party.

Even the State of Texas can pull big boners. The big $1,200,000 Hall of State on the Pan-American Exposition grounds is in such bad state of repair that the building will probably not be in use for several weeks after the opening of the fair on Saturday of this week. The building was erected last year for the Texas Centennial celebration. Work was so slow on the building that it was not opened to the public until near the end of the Centennial. During the winter the foundation settled in one wing; the plumbing was found to be inadequate; the murals were scaling off All in all, the Hall of State was a badly constructed job. No steps have been taken to make repairs on the building, estimated to cost not less than $30,000. It is likely that the building will not be in use until the exposition is more than half over.

Randall county will make a much larger wheat crop than was anticipated last week. The continued rain and cool weather have been most favorable to wheat. Good crops will be raised all over the county. This is much better for the farmers than was the case last year when only a section of the county raised an extra good crop. Farmers are elated over the prospects of row crop. With moisture being held by the contour listing, normal moisture during the summer will make a wonderful feed crop this year.

If you are interested in helping the public school band, go to the grade school building Friday night for the box supper. There will be a fine program that will be pleasing to all who attend. The band needs $500 for the purpose of buying four big bass horns. Each and every citizen will want to make some contribution to this worthy enterprise. They may do so by attending the box supper Friday night.

Canyon's clean up campaign has been greatly handicapped by the continued rain. But one of these days the rains will be over for a while, and the weeds will start growing at a terrific rate. Clean up now. The rubbish and old machinery must be gathered up and hauled to the dump grounds so that the weeds may be cut. Each citizen is urged to contribute his part to the campaign.

Possibility of the dam south of Umbarger was highly boosted when a member of State Board of Water Engineers visited here Friday. The project was called entirely feasible, and something worth while to the country. While the nation is thinking in terms of conservation, holding rainfall at its source is the quickest means of putting over a program of real conservation.

Down at Austin they have dubbed the Governor, "James Veto Allred." The Governor has used his veto powers more this session than any governor in recent years. The legislature has upheld him in all of his veto messages.

FARMALL Leads the Field with New Row-Crop Tool Combination

McCormick-Deering Farmall 20 or Farmall 30 (with power-lift attachment)— No. 10 Tool Bar Middle Buster—Tool Bar Sweep Equipment— No. 10-30 Tool Bar Planter—and Farmall Cultivators.

With a McCormick-Deering Farmall 20 or Farmall 30 and this new combination of equipment you can handle every field operation except picking and harvesting. You can quickly rig the Farmall for middle busting (2 furrows), running three middles, planting (2 or 4 rows), loose-ground listing (2 or 4 rows), relisting, or basin listing.

The basic implements carry a heavy square steel tool bar on which buster bottoms, sweeps, and planting units may be arranged for working in rows 36, 38, or 40 inches apart. It is a simple matter to make equipment changes or adjustments to meet seasonal requirements.

These new implements can be used with any Farmall 20 or Farmall 30 which is equipped with power lift. Similar tool bar implements are available for use with the Farmall 12.

We can't tell you all about this system of row-crop farming in our limited space here, but we'll go into every detail with you if you drop in at the store or give us a call on the phone.

MY OWN SUCCESS STORY

Giving people more mileage

I like people to know that I'm not just hired at my station. I'm the proprietor, making my living, all on my own. Naturally I'm choosey about anything I recommend, so no matter how close you might check whatever I say about mileage and performance, I can always look you square in the eye. And that goes double for my Conoco Germ Processed oil. It is the only kind that can Oil-Plate your engine. The patent Germ Process, you might say, gives this oil a real strong "yen" for metal. The oil actually joins up with every working part, always leaving a durable, slippy Oil-Plating that cannot run down, whether your car is stopped or hitting it up. Then you can start up a thousand times a day, or streak along from morning till night. But Oil-Plating will still be there, heading off wear, and letting you skip a lot of stops you used to make for oil. You'll be back here saying even more than me, about all your mileage and performance from Conoco Germ Processed oil.

"Undoubtedly milk plays a more important part than any other article of food in making the ordinary American dietary adequate in its mineral content."
— Dr. Henry C. Sherman, Ph.D., Sc.D., Mitchill Professor of Chemistry, Columbia University.

Precious minerals produced by cows

More than 230 million pounds of nature's finest minerals, more precious than gold, are in the milk Americans drink each year. This provides everyone with approximately two pounds of the indispensable calcium, phosphorus and other food minerals. Milk's mineral combinations are wonderfully constructed: perfectly proportioned in their bone, teeth and body building properties.

By constantly reminding the public of milk's matchless food values, Borden advertising and salesmanship help to increase the market for dairy products.

MISS LEONA HARDMAN WEDS LLOYD BUCHANAN

Miss Leona Hardman became the bride of Lloyd Buchanan Saturday evening at 8:30 in a quiet ceremony at which the Rev. Chas. L. Dickey officiated in the church study. Those witnessing the ceremony were Miss Eula Hardman, Miss Louise Solomon, Miss Lorene Connor, and Curtis Elliston.

Mrs. Buchanan is the daughter of Mr. and Mrs. G. H. Hardman of Canyon, and was graduated from the Canyon High School in 1934.

The bridegroom, the son of W. A. Buchanan of Canyon, also received his scholastic training in the Canyon High School, being graduated in 1933.

The couple will make their home west of the city.

WALL FINISHING DISCUSSED BY CLUB

"The condition of the walls of a room determines the kind of finish these walls require," stated Miss Allie Dozier, home demonstration agent, at the meeting of the Centerview club Friday afternoon in the home of Mrs. E. W. Schaeffer.

Semi-gloss interior paint is best for kitchen walls, added Miss Dozier, as this paint, unlike enamel, will not flake off. Light color wood work was stressed as being easier kept and making a more cheerful looking kitchen, and linoleum as an excellent floor covering.

Those present included: Mrs. Serena Bryan, Mrs. S. F. Sharpes, Mrs. L. H. Barnard, Mrs. J. K. Currie, Mrs. Bernie Higgins, Miss Vivian Carruthers, and Mrs. Schaeffer.

MRS. LENA TUCEK ENTERTAINS CLUB

West Side met at the home of Mrs. Lena Tucek Friday afternoon.

During a short business meeting Mrs. J. J. Wright gave the council report. Encampment plans were discussed. An interesting soap demonstration was given by Mrs. Wileman, a representative from the White King Soap Company.

After refreshments of strawberry short cake were served, Mrs. C. L. Gordon-Cummings conducted several clever contest games.

Those present were: Mrs. Wileman, Mrs. Raymond Tucek, Mrs. J. M. Carruth, Mrs. John Hunter, Mrs. E. N. Zachry, Mrs. J. A. Smith, Mrs. L. D. Winn, Mrs. Joe Baber, Mrs. C. L. Gordon-Cummings, Mrs. Ed Bourn, Mrs. F. E. Stockhaus, Misses Kitty Burrus, Bettye Joe Baber, Dora and Katie Tucek and the hostess, Mrs. Lena Tucek.

The next meeting will be an all-day affair at the home of Mrs. A. N. Burgan, June 18.

AMERICAN LEGION AUXILIARY MEETS

The Palo Duro Unit of the American Legion Auxiliary met in regular session Monday afternoon.

Following the business meeting the Unit joined the American Legion Post for a social hour.

Refreshments of strawberry ice cream and cake were served by Mrs. Ray Campbell and Mrs. C. L. Thompson, hostesses for the evening.

C. N. HARRISON, JR. TO MARRY TUESDAY

RUTH LAFON TO BECOME BRIDE

Miss Ruth LaFon of Amarillo, who is scheduled to become the bride of Harold Shanklin on June 21, has been honored at a number of prenuptial parties. Both Miss Lafon and Mr. Shanklin are former students of West Texas State.

Members of Beta Sigma Phi entertained Miss LaFon Wednesday evening with a linen shower at the home of Miss Virginia Lee Bull of Amarillo. Members attending were: Misses Ruth LaFon, Lillian Meade, Wanda Fauquet, Rosemary Selover, Mary Katherine Utterback, Hallie Reeder, Janareed Brinker, Theresa Corman, Mesdames Augusta Diven, Ardelle S. George, and the hostess.

Miss LaFon was honored with a dinner-bridge Monday evening at the Witherspoon Drug Store with Miss Tillie Blackburn as hostess.

High score in the games went to Miss Sue Evans, and second high to Miss Ethel Ruth Collins.

Guests were: Misses Ruth LaFon, Gladys Floyd, Sue Evans, Lillian Meade, Virginia Leigh Bull, Esther Allnut, Katherine Colman, Hannah McCormick, Ethel Ruth Collins, Clarice Bennett, Maurine Lee Neveu, and the hostess.

Mr. and Mrs. Olin E. Hinkle and son of Lexington, Ky., are visiting at the parental W. J. Hinkle home. Olin is editor of the Lexington Herald and the family is on a two weeks vacation to Texas.

MISS LORINE MICKLE WEDS LOYD CHILDERS

In a simple but impressive ring ceremony Miss Lorine Mickle and Loyd W. Childress were married at the home of the bride's parents, Mr. and Mrs. Ed Mickle, at 8 o'clock Monday evening with only members of the immediate families present.

Rev. Chas. L. Dickey, pastor of the Presbyterian church, read the ceremony. The mantle in the living room was banked with roses which made a beautiful background for the occasion.

The bride was dressed in a pink print crepe with blue accessories and carried a bouquet of pink sweet peas and rosebuds.

Mrs. Childers is a graduate of Canyon High School and attended W. T.

Mr. Childers is the son of Mrs. A. L. Watson and is employed by the Texas-New Mexico Utilities company here.

After the ceremony the wedding cake was cut and served with punch to those present.

The couple left early Tuesday morning for Cleveland, Texas, where they will visit relatives before going on to Galveston and other points of interest.

They will be at home in Canyon after June 16.

REBEKAH LODGE HOLDS MEMORIAL SERVICE

The Rebekah lodge met in regular weekly session Tuesday evening with Mrs. Nora Hart, Noble Grand, presiding. A memorial service was held in honor of those in the order who have passed away. In the local order no deaths have occurred the last year.

Mrs. Isabel Dickerson, Mrs. Winnie Gibbs, and Mrs. Nora Hart served sandwiches, cakes and punch to the following at the conclusion of the lodge: Miss Columbia Redfearn, Miss Geraldine Hart, Mrs. Ola Ridgway, Mrs. Pinkie McBride, Mrs. Myrtle Wester, Mrs. Nannie Myers, Mrs. Mary B. Rev. W. H. Bessire and family left Monday for Lewistown, Montana, where he has assumed work in the missionary field of the Presbyterian Church.

Mrs. Jessie Hill, Mrs. Dick Higgins, and Mrs. Roy Morton visited friends in Canyon and with Carl Morton in an Amarillo hospital Sunday.

ZITA CLUB MEETS WITH MRS. D. C. McCORMICK

Wall, wood work, and floor finishes were discussed by Miss Allie Dozier, home demonstration agent, at the meeting of the Zita club at the home of Mrs. D. C. McCormick Tuesday afternoon.

Points brought out by Miss Dozier were that Sanitas and Semi-wash make excellent coverings for walls and that figured builders' paper is an inexpensive wall covering. Melo-gloss was mentioned as being good for light wood and glocoat wax as a finish for linoleum, with paraffin and kerosene for hardwood floors.

Mrs. M. H. Rockwell showed her scrapbook on modern kitchens. H. R. Fulton, Jr., gave several accordian selections during the program hour.

A buffet lunch was served to the following members: Mrs. J. P. Upchurch, Mrs. Eula Watson, Mrs. John Moody, Mrs. Lawrence Fulton, Mrs. Emma Gruner, Mrs. H. R. Fulton, Mrs. D. C. McCormick, Mrs. E. H. Pleads for Use of U. S. Helium

Serious, impassioned was Dr. Hugo Eckener, veteran German aviation expert, as he testified above before the Senate Military Affairs Committee in Washington, pleading for the release of American-owned helium for use in Nazi dirigibles. Without use of this helium, he said, the lighter-than-air craft is doomed.

Travelers Return Tuesday From Mexican Tour

The first Spanish tour, sponsored by the West Texas State Teachers College, is over and the travelers again at home are commenting enthusiastically on their trip. They returned to Canyon late Tuesday night with difficulties they had in connection with the gas war rapidly fading into the back ground of their memories and recollections of the excellent accommodations and great scenic beauty taking their place.

Miss Agnes Charlton, representative of the college Spanish department said: "We found the road wonderful and scenery beautiful beyond words. When we reached Mexico City we stored our cars and took all the trips that we had planned by taxi, the taxi men having anticipated the gasoline war and prepared themselves for it. When we were ready to leave Mexico City, the United State Consulate and Mexican Automobile Association assisted us in getting gasoline to fill our tanks and additional cans to carry with us. We reached the border without having to pay exorbitant prices and without delay." The travelers declared that they found excellent accommodations at reasonable prices all along the way and that with very few exceptions the food was good.

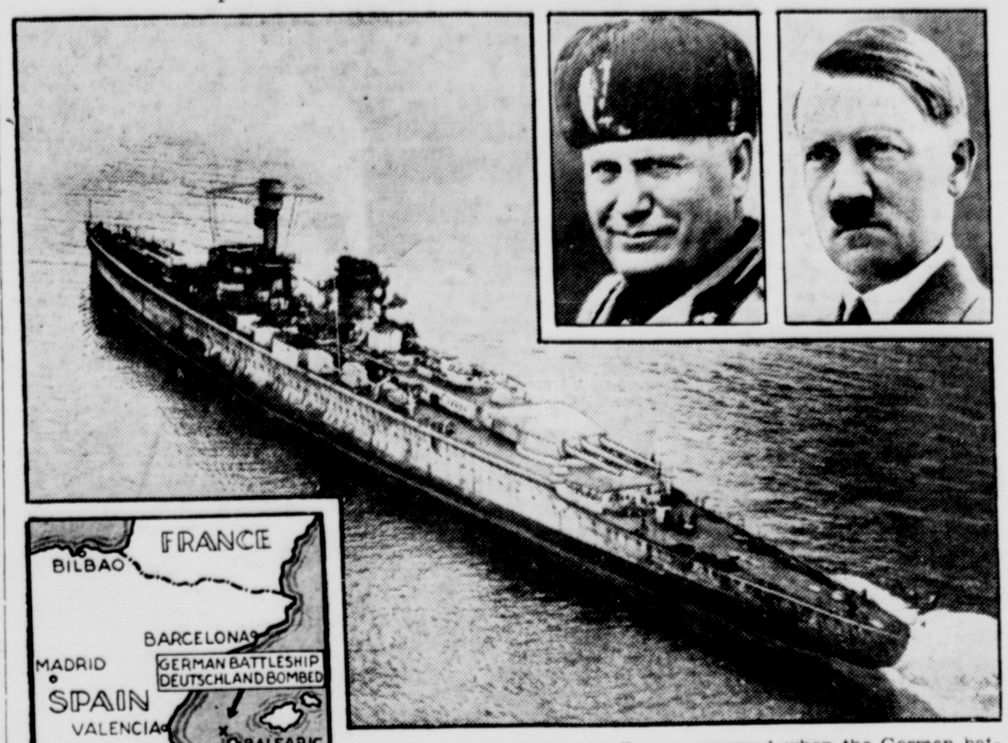

Miss Charlton said that the trip was highly instructive to Spanish speaking students. She has made several other trips to Mexico but on no other occasion had come in contact with as many Spanish speaking people.

The trip was made at a low cost for the seventeen days consumed. It is probable that other similar trips will be sponsored in the future.

Those who made the trip were: Gerald Brown and Miss Jewell Foster of the Canyon High School faculty; Mrs. T. H. Knighton, Canyon; Mr. and Mrs. Mark Cowsert of Dimmitt; Misses Harriet Dickinson and Mattie Wave Grammar of Lockney; Mrs. Nellie M. Kingland and Mrs. H. B. Jones of Amarillo; Miss Margaret Fent of Clovis, N. M., and Miss Agnes Charlton.

Ples Harper spent last week here visiting with friends. He teaches at Tucson, Ariz., but left Sunday for Palo Alto, Calif. for the summer.

Nazi-Spanish 'War' Cr eates European Crisis

Gravest crisis of post-war Europe occurred when the German battleship Deutschland, above, was bombed by Spanish government planes off the coast of Spain, as shown on map, resulting in death for 25 sailors. In reprisal, Nazi warships, under orders of Fuehrer Hitler, inset right, leveled their guns at Almeria, causing many casualties and widespread destruction. Meanwhile, Il Duce, inset left, hinted Italian support of Germany in event of emergency.

More Government Credit Required for Graduation

New State Regulation Calls for 6 Hours Work In State or National Government

After September 1, 1937 persons who wish to be graduated from any Texas supported, State Educational Institution will be required to have six hours credit for study of government of the State of Texas or the United States. The new requirements are to be found in House Bill, No. 291, which reads as follows:

"No person hereafter shall be certified to teach in the public schools of the State of Texas until he has secured credit for the course in both Federal and State Constitutions of the grade of instruction upon which he is applying for the certificate, that is either of the subcollege or of the college work; or in lieu thereof shall have passed an examination set by the State Superintendent of Public Instruction on the Constitution of the United States and Texas; provided, that any person who has to his credit in any standard college or university of Texas as much as six (6) hours of American Government shall be deemed to have met the requirements of this section. Provided further, that after September 1, 1937, no student shall be certified for graduation from any tax-supported State educational institution with the award of a college degree unless such student shall have completed theretofore in a standard college or university at least six (6) hours for credit in the governments of the State of Texas or of the United States of America, or the equivalent in both."

A JOINT RESOLUTION

proposing an amendment to Section 16, Article XVI, of the Constitution of Texas; providing that the Legislature shall authorize the incorporation of banking bodies and provide for the supervision and regulation of same; providing for all of the capital stock to be subscribed and paid for before charter issued; restricting foreign corporations from doing banking business; restricting corporate business to one place.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 16, Article XVI, of the Constitution of Texas, be amended so as to hereafter read as follows:

"Section 16. The Legislature shall by general laws, authorize the incorporation of corporate bodies with banking and discounting privileges, and shall provide for a system of State supervision, regulation and control of such bodies which will adequately protect and secure the depositors and creditors thereof.

"No such corporate body shall be chartered until all of the authorized capital stock has been subscribed and paid for in full in cash. Such body corporate shall not be authorized to engage in business at more than one place which shall be designated in its charter.

"No foreign corporation, other than the national banks of the United States, shall be permitted to exercise banking or discounting privileges in this State."

Sec. 2. The foregoing amendment to the Constitution shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the fourth Monday in August, 1937. At this election all voters favoring the proposed amendment shall write, or have printed, on their ballots the following words:

"For the amendment of Section 16 to Article XVI of the Constitution of the State of Texas, providing for the amount of the liability of stock-holders in State banks."

Those voters opposing said amendment shall write, or have printed, on their ballots the following words:

"Against the amendment of Section 16 of Article XVI of the Constitution of the State of Texas, providing for the amount of the liability of stock-holders in State banks."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for such election, and to have same published as required by the Constitution and the amendments thereto.

Sec. 4. The sum of Five Thousand Dollars ($5,000.00), or so much thereof as may be necessary, is hereby appropriated out of any funds of the State of Texas, not otherwise appropriated, to pay the expenses of such election.

HOUSE JOINT RESOLUTION

proposing an Amendment to the Constitution of the State of Texas to be known as Section 20 of Article VIII, providing that no property of any kind shall be assessed for ad valorem taxes at a greater value than its fair cash market value; and giving the Legislature power to provide that the State and all governmental or political subdivisions or taxing districts may allow a discount for payment of ad valorem taxes before the date when they would otherwise become delinquent; and providing that this Amendment shall become effective January 1, 1939; providing for an election on the question of adoption or rejection of this Amendment; providing for the proclamation and publication thereof; and making an appropriation therefor; and prescribing the form of ballot.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That the Constitution of the State of Texas be amended by adding a new Section to Article VIII to be known as Section 20 and to read as follows:

"Section 20. No property of any kind in this State shall ever be assessed for ad valorem taxes at a greater value than its fair cash market value nor shall any Board of Equalization of any governmental or political subdivision or taxing district within this State fix the value of any property for tax purposes at more than its fair cash market value; provided that in order to encourage the prompt payment of taxes, the Legislature shall have the power to provide that the taxpayer shall be allowed by the State and all governmental and political subdivisions and taxing districts of the State a three per cent (3%) discount on ad valorem taxes due the State or due any governmental or political subdivision or taxing district of the State if such taxes are paid ninety (90) days before the date when they would otherwise become delinquent; and the taxpayer shall be allowed a two per cent (2%) discount on said taxes if paid sixty (60) days before said taxes would become delinquent; and the taxpayer shall be allowed a one per cent (1%) discount if said taxes are paid thirty (30) days before they would otherwise become delinquent. This amendment shall be effective January 1, 1939. The Legislature shall pass necessary laws for the proper administration of this Section."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at a special election to be held throughout the State of Texas on the 23rd day of August, 1937, at which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words:

"FOR the Amendment to the State Constitution providing that property shall never be assessed for taxes at more than its fair cash market value, and providing that in order to encourage the prompt payment of ad valorem taxes, the Legislature shall have the power to permit a discount for the payment of same before they become delinquent."

Those voters opposing said proposed Amendment shall write or have printed on their ballots the words:

"AGAINST the Amendment to the State Constitution providing that property shall never be assessed for taxes at more than its fair cash market value, and providing, that in order to encourage the prompt payment of ad valorem taxes, the Legislature shall have the power to permit a discount for the payment of same before they become delinquent."

If it appears from the returns of said election that a majority of the votes cast are in favor of said Amendment, the same shall become a part of the State Constitution.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution for Amendments thereto.

Sec. 4. The sum of Eight Thousand Dollars ($8,000), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State, not otherwise appropriated, to pay the expenses of such publication and election.

A JOINT RESOLUTION

proposing an amendment to Article III, Section 52, of the Constitution of the State of Texas by adding thereto a new section to be known as Section 52d; providing that the Legislature may authorize by law, after a majority vote of the resident qualified electors owning taxable property therein, the adoption of a plan for the construction of paved roads and bridges or both in Harris County and in road districts therein; providing for the levy of a tax to pay for such construction; providing for the necessary proclamation; and appropriating funds to defray the expenses of the proclamation; publication, and election.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III, Section 52, of the Constitution of the State of Texas, be amended by adding thereto another section to be known as Section 52d, which shall read as follows:

"Section 52d: Upon the vote of a majority of the resident qualified electors owning rendered taxable property therein so authorizing, a county or road district may collect an annual tax for a period not exceeding five (5) years to create a fund for constructing lasting and permanent roads and bridges or both. No contract involving the expenditure of any of such fund shall be valid unless, when it is made, money shall be on hand in such fund.

"At such election, the Commissioners' Court shall submit for adoption a road plan and designate the amount of special tax to be levied; the number of years said tax is to be levied; the location, description, and character of the roads and bridges; and the estimated cost thereof. The funds raised by such taxes shall not be used for purposes other than those specified in the plan submitted to the voters. Elections may be held from time to time to extend or discontinue said plan or to increase or diminish said tax. The Legislature shall enact laws prescribing the procedure hereunder.

"The provisions of this section shall apply only to Harris County and road districts therein."

Sec. 2. The foregoing amendment to the Constitution of the State of Texas shall be submitted to the qualified voters of the State on the fourth Monday in August, 1937, at which election all voters favoring such proposed amendment shall write or have printed on their ballots the words: "For the amendment to the Constitution providing that Harris County and any road district therein may upon a vote of the people therein adopt a road plan and levy taxes for road and bridge construction in lieu of the issuance of bonds"; those voters opposing said amendment shall write or have printed on their ballots the words: "Against the amendment to the Constitution providing that Harris County and any road district therein may upon a vote of the people therein adopt a road plan and levy taxes for road and bridge construction in lieu of the issuance of bonds."

Gum-dipped cords PROVIDE THE EXTRA MARGIN OF SAFETY ON THE SPEEDWAY OR HIGHWAY

THOUSANDS said that tires could not stand the terrific grind. They said cars had been built with much greater speed, turns in the track had been repaved with granite-like surface, yet Wilbur Shaw drove to victory on Firestone Gum-Dipped Tires setting a new record of 113.58 miles per hour on one of the hottest days in the history of the Indianapolis track.

Think of the terrific impact on these tires as the cars roared into the treacherous turns and out again. Tons of force straining, pulling, and twisting inside the tire, *yet not one cord loosened, not one tread separated from the cord body*—all because Gum-Dipping, the Firestone patented process, successfully counteracted the internal friction and heat that ordinarily destroy tire life.

You will never drive your car at these record-breaking speeds but for the safety of yourself and family you need the safest, strongest and most dependable tires. Come in today. News in Canyon 25 Years Ago

(Taken from the files of the Randall County News of May 31, 1912)

Randall County is evidently standing on the threshold of the greatest harvest in her history, alike as to amount of land cropped and production per acre. Last year about 50,000 acres were cultivated around Canyon, while over 70,000 acres will be harvested this season.

Located near Canyon is the John A. Wallace dairy herd—called the finest in the Panhandle. This herd is composed of thoroughbred Jerseys, many of which are registered stock. At present Mr. Wallace is milking 36 cows with a shipment to Amarillo of 125 pounds of butter per week and a local sale of butter and cream, the latter being used exclusively for ice cream manufacture.

In the college grounds 700 shade and ornamental trees have just been put out.

S. B. Orton is building a 20x30 addition to his business house, the West End Grocery.

A number of men from Canyon are fishing up the creek near Umbarger. In the party are: W. T. Moreland, R. G. Oldham, H. W. Morelock, C. P. Money, S. V. Wirt, and J. C. Kee Zee.

June 7, 1912

Hon. Choice B. Randall, congressman from Texas and candidate for the United States senate, will visit Canyon next Wednesday in a tour over the Plains.

Four of the graduation class of the Normal have been elected to the Panhandle public schools. L. N. George of Brownwood was elected principal, Miss Antanio McMillian of Bells to the 1st and 2nd, Miss Ida Rowan of Canyon the 3rd and 4th, and Miss Pearl Hensley of Canyon to the 7th and 8th grades.

Beginning Thursday at 1:30 and continuing for 40 minutes was one of the biggest rains this section of the Plains has seen for over a year. Over three inches fell in that short period.

L. E. Cowling joined the "barefoot boy" gang and came down town after the rain yesterday bare foot and carrying his shoes. The water was six inches over the sidewalk most of the way from his home to town.

Prizes offered by the Order of Sons of Hermann (German language prizes) were awarded to the following students in the Normal: Miss Helen Buie, Miss Lillie Hare, and Miss Alva Stafford of Canyon, Veltie Daugherty of Hagerman, N. M., Earl Laird of Kilgore and Miss Ellen Longbine of Goodnight. Prof. F. P. Guenther, head of the department, was highly complimented upon his work.

Miss Maud Brandon entertained sixteen ladies at a shower Monday in honor of Miss Sadie Montgomery.

J. E. Winkelman entertained Thursday night a number of men in honor of W. G. Word whose marriage is announced for June 12.

Dan K. Usery visited over Sunday in Stratford with his wife and baby.

Miss Ritchie, of the Normal faculty, returned Monday from a two weeks' visit at Mineral Wells. She was accompanied by her nephew, George Ritchie, who will spend the summer in the city.

Mrs. T. T. Tanner of Terrill and Mrs. Ed Pilley and son of Levelland returned to their home this week following a visit in the Lige Frieze home here.

Mr. and Mrs. Allan Dickerson and Mr. and Mrs. W. A. Dickerson of Silverton were guests of Mr. and Mrs. N. T. Dickerson over the week-end.

BUDGET BALANCER *Organ music... nervous "I do's"....a sedan decorated with old shoes... honeymoon.... Then the June bride faces the July budget, interested in stretching every family dollar.*

Lady, the gasoline for you is Phillips 66 Poly Gas. It is thrifty. It is your *Best Buy* in motor fuel, because it piles up the miles at rock-bottom cost. This is why:

Every gallon is enriched with *extra energy units* by the patented POLYmerization process. So less gas does more. This not only helps mileage, but increases the power-output of your engine.

And your engine keeps running at top efficiency, no matter what the thermometer reads, because Phillips 66 Poly Gas is 100% custom-tailored. Is more accurately matched to your weather than any other gasoline.

Even if you are not a June bride, you may discover *today's greatest gasoline value* by trying just one tankful of the new Phillips 66 Poly Gas. You will actually *feel the difference* and you will save money, too, because Phillips 66 costs no more than ordinary gasoline.

Burglars Get $12 From Shoe Shop

Burglars made off with approximately $12 in cash from the American Shoe Repair Shop Wednesday night, June 2, when they broke into the shop and forced open the cash register.

The marauders entered from the rear sometime during the evening while G. G. Slayton, owner, was absent from the shop. They carried the cash register to the rear of the building and forced it open, doing considerable damage to the machine as they did so.

Depleted Wild Life Resources Spur Uncle Sam to Greatest Restoration Drive

Foremost in Uncle Sam's plans to restore the wild game life of the nation are the expanded winter feeding programs, as shown here in actual practice. Below, deer feeding at one of the government hay stations in Glacier National park. Top, herding buffalo into winter feeding grounds in Yellowstone National park.

ENLISTED on a far-flung front, Uncle Sam's agents are engaged these days in their greatest drive to restore the wild life of America.

Spurred by the steady dwindling of wild life in this country in the last 50 years, the government is setting out to save what is left and to build up these resources for the future. The Senate is formulating legislation to that end and President Roosevelt himself is behind this program which he regards of vast importance.

Four government services combine to lead the battle. These are the United States Forest Service, the Biological Survey, Bureau of Fisheries and the National Parks Service.

• • •

CHIEF duties face the forest service since more than 200,000,000 acres of federal lands are under its direction. But the forest service is seeking to enlist the aid of states and communities, even private interests, in the drive. This is why:

Big game, such as buffalo, antelope, bears, moose, and deer is showing a constant decrease. At one time an estimated 30,000,000 to 40,000,000 antelope roamed the plains. Today, however, only about 60,000 survive.

Similarly, the smaller game life of the nation, grouse, wild geese, prairie chickens, fish and waterfowl have faced a staggering depletion. True, states and the federal government have exercised an increasing vigilance in recent years but the supply of wild life still is dangerously low.

• • •

TO achieve a vast restoration, therefore, Uncle Sam is launching this new offensive. "Shock" troops in this fight are the 800 rangers of the forest service. The vast federally-controlled forests have been divided into districts, with one ranger to a district. And in these areas a concentrated restoration program is to get under way, augmenting present programs.

Enforcement of the game laws, of course, comes first. It is expected more rigid work in this direction will take place, with possible new legislation aiding the effort.

As a second move, winter feeding of big game animals will be extended under present plans. Typical of the large-scale winter feeding now carried on is that in Jackson Hole, Wyo., last resort of the great elk herds.

There, under the direction of the biological survey, hay is fed to thousands of head of elk each winter. Grain also is provided when necessary. Only thus has this herd been saved to America.

• • •

"PIONEER conditions, with bountiful supplies of wild life, can never be restored, of course," points out F. A. Silcox, chief of the Federal Forest Service.

But he adds: "It is our aim to produce the best possible home for big game, upland birds, fish and waterfowl, fur bearing and other wild life, and the best areas for recreation, hunting, fishing and trapping."

That is, obviously, a gigantic task, but the dividends ought to be eminently worthwhile.
